
The Visual Reality Project Book

The Visual Reality Project Book

Preface	iii
To the Student	iii
To the Teacher	iv

Chapter 1

Preparing a DataCAD Model	1
Creating the model	3
Adding a window	6
Adding furniture	7
Adding a ceiling	9
Adjusting layers	10
Using EditSets	10
Exporting a DXF file.....	12

Chapter 2

Importing and Rendering a Model.....	15
The Visual Reality interface.....	16
Editing an object	20
Adjusting the camera.....	22
Adjusting the lighting	24
Naming and copying views.....	26
Editing materials	27
Rendering to a file	29

Chapter 3

Adding Surface Textures	33
Loading images	35
Editing materials	35
Editing objects	37
Adjusting texture colors	40
Editing images	42

The Visual Reality Project Book

Chapter 4

Modifying Surface Textures.....	45
Creating shiny bumpy textures	46
Casting shadows	50
Adding a background image.....	52
Making an object transparent	53

Chapter 5

Camera Animation	57
Creating a new Visual Reality project.....	58
Adjusting the lighting	60
Copying a view	61
Creating an animation	62
Adjusting the camera path.....	66
Animation process summary	69

Chapter 6

Animating Objects and Lights	73
Animating Objects	74
Joining Objects	74
Moving an Object.....	75
Rotating an Object.....	78
Scaling Objects.....	79
Copying Objects	80
Animating Materials.....	83
Animating Lights	85
